

NAME _____

SCHOOL Hahnemann University School of Medicine

NATIONAL BOARD OF
MEDIC
EXAMINERS
JUNE 1, 1989

PLEASE DO NOT BREAK SEAL UNTIL ASKED TO DO SO

Please go on to next page

Helpful Laboratory Values

Number of original Class of 1989 students	178
Number of current Class of 1989 students	155 +/-5
Average number of lectures in first year	4.25/day
Average number of lectures attended first year	0.25/day
Average number of lectures in second year	12.6/day
Average number of students at pathology lectures	21.3- students
Average number of students in game room	102.9 students
Cost of tuition of Hahnemann University School of Medicine	\$8,700/semester
Mean total indebtedness for four years	\$100,239.21/student
Number of students who wish they had gone to a state school	155 +/-5
Number of times Steve Shor had to rewrite the V/Q lecture	4
Number of days one could not pick up notes before the box was stuffed	3
Number of marriages between Class of 1989 students	1
Number of Californians in Class of 1989	too many
Amount of time it takes to get smell of anatomy lab out of clothes	6 months
Number of people surrounding prosection table	23.4 students
Money spent taking National Boards	\$450 +/-150
Number of cases of Budweiser this could have purchased	45 +/-15 cases
Average cost of 200 page paperback novel	\$4.95
Average cost of 200 page spiral-bound medical book	\$21.95
Cost of small coffee at Hahnemann cafeteria	\$0.40
Physician fee for upper endoscopy after cafeteria coffee	\$378.67
Price of Note Service (1 year)	\$300.00
Amount of money Joe Ravalese III netted	\$12,300 (approx)
Number of people who request the O/M/C Service for medicine	35/rotation
Number of people who request Nephrology A	2/decade
Number of residents at Hahnemann named 'Patel'	87 +/-12
Number of faculty named 'Schwartz'	12 +/-3
Seniors who gave yearbook photos in June as requested	2
Seniors who gave yearbook photos in July as prodded	6
Seniors who gave photos in November when threatened	142
Number of yearbook deadlines met	0
Number of white coats used during years 2 and 3	2-4
Number of people who carry tuning forks (juniors)	122 +/-4
Number of seniors who carry tuning forks	2 +/-0.5
Number of progress notes written on each patient	5/day
Number of people who read the students' note	0
Number of people who read the nurse's note	4
Number of venipunctures when on call	7/night/student
Number of actual learning experiences while on call	0/night/student
Serum sodium	135-140mEq/L
Serum potassium,	3.5-5.0mEq/L
Number of calls we will get at 3AM if serum potassium is 3.4	8/night
Nurses who will date a first year student	1%
Nurses who will date the same student when he's a senior	12%
Nurses who will date the same person when he's an intern	96%
Reason why so many people want to be doctors	see above

Directions: Each question below contains four suggested responses of which one or more is correct. Select

- A if 1,2, and 3 are correct
- B if 1 and 3 are correct
- C if 2 and 4 are correct
- D if 4 is correct
- E if 1,2,3, and 4 are correct

1. If a passerby dialed the number on this sign he would

- (1) find the right physician with just one call.
- (2) get a busy signal.
- (3) be put on hold.
- (4) get his call transferred to Temple

This is a view seen through the eyes

- (1) A college premed in awe of the mecca that is Hahnemann University Hospital.
- (2) A Japanese real estate developer with his eye on purchasing a profitable U.S. property.
- (3) A motorist headed towards the Liberty Bell and other famous landmarks.
- (4) A drunken construction worker staring up from the bottom of the 20-foot ditch that was Vine Street.

3. This man is
- (1) Benjamin Franklin
 - (2) pretending to be Benjamin Franklin
 - (3) David Crosby
 - (4) Scott Croll in 30 years

4. The children shown above are
- (1) playing in Logan's Circle on a hot summer's day
 - (2) getting an up-close look at statues of naked women
 - (3) innocently sunning themselves in Eakin's Oval
 - (4) frolicking behind the Hefflin Mansion

5. The student in the photograph shown is doing which of the following?

- (1) Inhibiting ADH secretion.
- (2) Performing gastric lavage with a warm saline solution.
- (3) Premedicating a patient for surgery.
- (4) Inserting a foley catheter.

6. Which statement most accurately describes the group pictured above?

- (1) They are on the first day of their orthopedics rotation.
- (2) They are appropriately dressed for venipunctures in Hahnemann's E.R.
- (3) They are picking up their union cards after Match Day.
- (4) They are preparing to separate Mr. and Mrs. Patanella with high explosives.

A
1,2,3
only

B
1,3
only

C
2,4
only

D
4
only

E
All
are correct

7. The "plant" held by "Dr. DiGregorio" is known for which of the following?

- (1) Increased cardiac output
- (2) Decreased lung compliance
- (3) Alteration of sensorium
- (4) Making Steve Higgins look tasty to this yearbook staffer

8. Monmouth is a great place for rotations because
- (1) The students shown are wearing standard hospital clothes
 - (2) This picture was taken at Monmouth Grand Rounds
 - (3) This picture was shot at 11:30 Monday morning
 - (4) Where else can Dan Fabiano get away from Howard Finn.

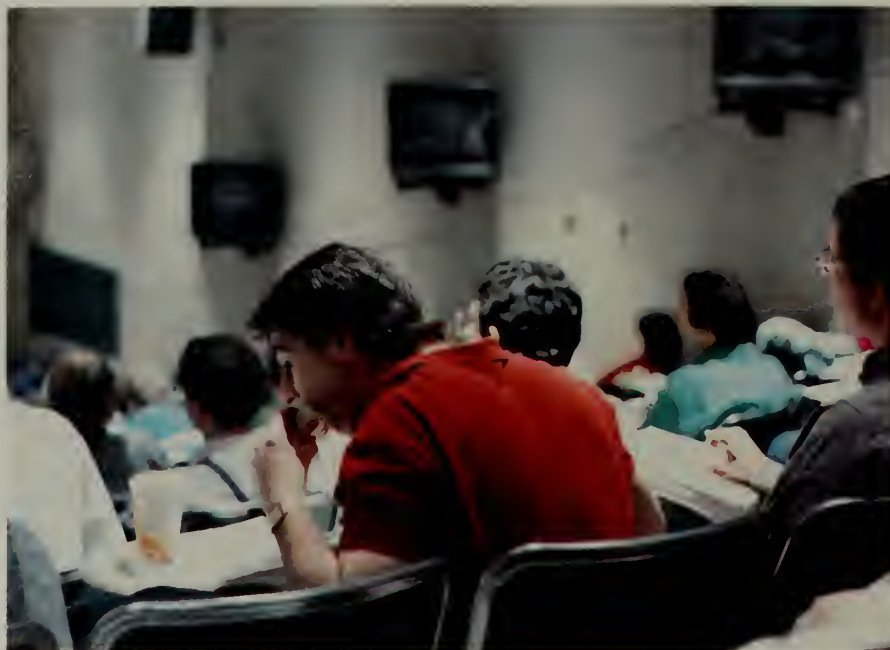

9. Crew is a Philadelphia tradition. The following is true of these four 8-man shells:

- (1) The probability of any of the boats winning is 1 in 4.
- (2) The probability of any oarsman making the Olympic team is 1 in 450.
- (3) The likelihood of an auto accident occurring on nearby Kelly Drive is 1 in 3.
- (4) These shells are being rowed by the third years who have failed Boards.

10. This happy scene was photographed at:

- (1) The living room of Ray
- (2) The dining room of Dean
- (3) The den of Dalberg
- (4) The day room at Byberry

11. People who sat next to this man were:
- (1) Impressed by his diligent preparation for each and every lecture.
 - (2) Impressed by his sharp questioning abilities.
 - (3) Impressed by his attendance record.
 - (4) Overwhelmed by the smell of onions at 8:30 in the morning.

12. The patient being examined in the photograph (right) is:

- (1) Comatose.
- (2) Responding to the examiner's countertransference.
- (3) Not mentally competent to refuse medical care.
- (4) Vaso-engorged.

DIRECTIONS: Each photograph below is followed by a set of lettered items. For each picture, select

- A if the photo is associated with (A) only
- B if the photo is associated with (B) only
- C if the photo is associated with **both** (A) and (B)
- D if the photo is associated with **neither** (A) nor (B)

13. Chong is demonstrating
- (A) A complete inability to carry a tune.
 - (B) A complete inability to carry a tune.
 - (C) Both
 - (D) Both

4. This kodachrome shows
- (A) Hahnemann medical students mauling in a game of rugby.
 - (B) Hahnemann medical students mauling for an orthopedics spot.
 - (C) Both
 - (D) Neither

15. This person is.
- (A) A participant in a past Hahnemann Bed Race.
 - (B) A patient who got sick of waiting for transport to take him to P.T.
 - (C) Both
 - (D) Neither

16. Shown here are Attending X and Student Y. This slide demonstrates
- (A) Attending X teaching Student Y how to interpret an electrocardiogram.
 - (B) Attending X totally ignoring Student Y during rounds.
 - (C) Both
 - (D) Neither

DIRECTIONS: For questions 17-24 choose the lettered heading which most closely describes the numbered item. Each lettered heading may be used once, more than once or not at all.

- 17. Pale and flabby
- 18. Tan, well toned
- 19. Pale and moderately toned
- 20. Smart enough to leave his shirt on

- 21. Will have mastered the use of third generation cephalosporins after four weeks.
- 22. Will have written "Drug fever??" on numerous consult request forms.
- 23. Will have inadvertently spread methicillin-resistant staph. aureus all over the hospital
- 24. Will have made A, B, and C sniff several hundred moist "4X4"s in an attempt to demonstrate the lovely aroma liberated by anaerobic bacteria.

A.

B.

C.

- 25. Decorticate
- 26. Decerebrate
- 27. Spastic
- 28. Flaccid

D.

DIRECTIONS: As you have done a thousand times before, answer

- A if 1, 2, and 3 are correct
- B if 1 and 3 are correct
- C if 2 and 4 are correct
- D if 4 is correct
- E if 1, 2, 3, and 4 are correct

29. The radiologist (seated) is showing the medical student several keys to interpreting a chest roentgenogram. Among these are:

- (1) How to compare right and left lung fields.
- (2) How to evaluate the cardiac silhouette for hypertrophy.
- (3) How to check for Kerly B lines.
- (4) How to improvise

31. The lesions in this kodachrome are:

- (1) Burkitt's Lymphoma
- (2) Berkowitz Lymphoma
- (3) A.T.N. (Acute Tubular Necrosis)
- (4) A.T.N. (Etienne)

30. This SEPTA train is unusual in that:

- (1) It is clean.
- (2) It is on time.
- (3) It is moving.
- (4) There is not a body in its path.

32. The man with the sign thinks he is:
- (1) Sitting between Serrie Lico and Jim Butler.
 - (2) Sitting between George Bush and Dan Quayle.
 - (3) Sitting between two prominent physicians.
 - (4) Sitting between Manny and Jack.

33. How does one tell that the man on the right is a nephrologist?
- (1) He lives on the 18th Floor.
 - (2) The stethoscope belongs to a dialysis nurse.
 - (3) He won't wear a white coat.
 - (4) He has just collected a urine specimen from the man on his right.

34. This is a re-enactment of:
- (1) An old Godzilla movie.
 - (2) The victory at Iwo Jima.
 - (3) Parents Weekend, 1985.
 - (4) The military takeover of the Department of Surgery, 1971.

DIRECTIONS: FOR EACH OF THE LETTERED ITEMS BELOW SELECT THE NUMBERED QUESTION WHICH IS MOST CLOSELY ASSOCIATED WITH IT. EACH CHOICE MAY BE USED ONCE, MORE THAN ONCE, OR NOT AT ALL.

- 35. Glasgow Coma Scale of 3-4.
- 36. Subarachnoid hemorrhage secondary to berry aneurysm rupture.
- 37. Nocturnal emissions ("wet dreams")
- 38. Enjoying a Mexican vacation.
- 39. Naphthalene intoxication
- 40. Had Dave Strickland's Board scores accidentally sent to his house.

41. It is often easy to tell what field a student is entering from his appearance. Accordingly, what may be deduced from the picture at left?

- (1) Neurologists look bored and detached.
- (2) Psychiatrists look disheveled.
- (3) Internists are thin sickly things.
- (4) Pathologists resemble Jack Nicholson.

42. This couple is best described as:

- (1) Brother and sister
- (2) Boyfriend and girlfriend
- (3) Husband and wife
- (4) Jerry Garcia and Mountain Girl

43. This group of women belongs to:

- (1) A.M.W.A.
- (2) A.G.W.A.Y.
- (3) A.M.S.A.
- (4) N.A.M.B.L.A.

DIRECTIONS: Match the lettered photo with the numbered question below that is most closely associated with it.

44. Wittles and Kaplan exchange oil immersion secrets.
45. Battle of wits between unarmed opponents.
46. Breznick overdoses on hair styling gel.
47. Miss Red Corpuscle, 1986.

48. Which statement(s) correctly describe the lesion on this man's right arm?

- (1) It is multilobulated.
- (2) It grossly resembles a hydatiform mole.
- (3) Punch biopsy is therapeutic and diagnostic.
- (4) Lesion regresses with every purchase.

49. This structure represents:

- (1) Our ever-changing world.
- (2) "What goes around comes around".
- (3) The vestibular apparatus.
- (4) Mismanagement of city funds.

50. What is the most important point of the picture at left?

- (1) It was taken prior to a final exam.
- (2) No one is speaking.
- (3) Nanci is the only woman,
- (4) Who was obnoxious enough to be the last person to squeeze him/herself on this small couch?

51. The man pictured to the left is:
- (1) paying a parking ticket.
 - (2) a fugitive from the law.
 - (3) having his valuables returned after an overnight stay.
 - (4) the Belle of the Jailhouse Ball.

52. Griff is showing Joe the part of the brain that:
- (1) controls the volume status of the body.
 - (2) controls the rate of respiration.
 - (3) is supplied by the anterior cerebral artery.
 - (4) causes generation after generation to give their sons the same name.

53. Which of the following are true concerning the Medevac helicopter?

- (1) It is capable of bringing a critically injured accident victim from 50 miles away to Hahnemann in 23 minutes.
- (2) Its landing pad is located on the 14th floor of the hospital.
- (3) It has a four-person crew ready 24 hours-a-day.
- (4) It will soon be the only way to cross Vine Street.

54. The woman pictured to the right is:

- (1) Enjoying her classmate's treatise on TMJ syndrome.
- (2) Trying to end the conversation gracefully.
- (3) Getting "the moves" put on her.
- (4) Tiring of the inside scoop on Perry Black's shoe collection.

55. The man pictured below left:

- (1) Answers to "Howie".
- (2) Answers to "Macho Man".
- (3) Has inexplicably haunted the man on the right.
- (4) Has both hands full.

56.Nanci Pittman, shown in the photograph above is:
 (1)explaining neuroanatomical relationships to Dave Piatok.
 (2)about to immerse her Swatch in formaldehyde.
 (3)trying to avoid Dave's roving hands.
 (4)wishing her last name didn't start with "Pi-".

57.Brian Henry, in this photomicrograph,:
 (1)looks disgruntled that he is unable to locate a vacutainer tube.
 (2)is waiting for a patient list printout.
 (3)wishes he were able to wear his Cramps T-shirt on rounds.
 (4)is hiding in the supply closet until his hair grows out.

58. Nick Tsarouhas is:

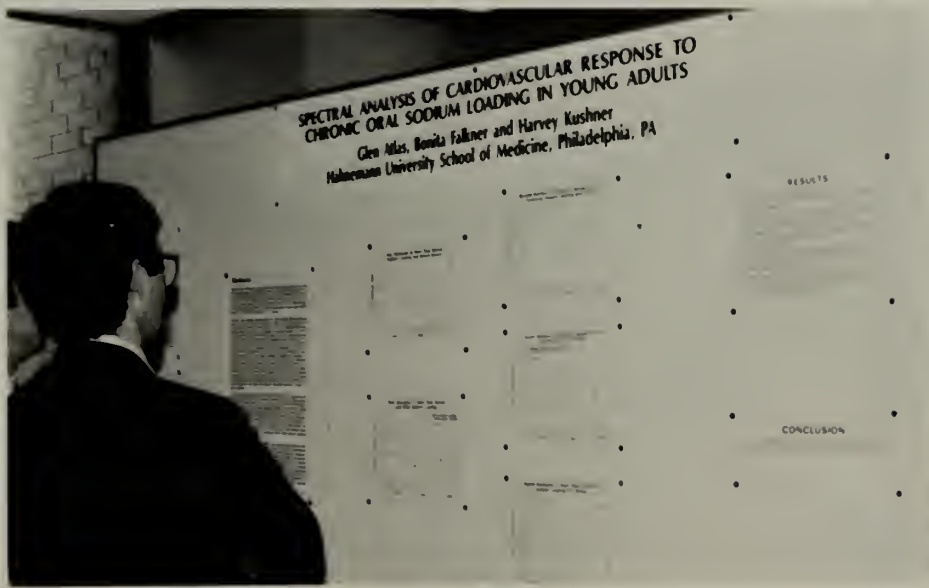

- (1) enjoying a free moment with his infant son.
- (2) consoling a young child during his pediatrics rotation.
- (3) caught red-handed fleeing the nursery with the baby he planned to sell.
- (4) the only person capable of shutting Lin's baby up during lecture.

59. Mrs. Freidrich (also known as "Flossie"):

- (1) is in charge of scheduling senior medicine electives and subinternships.
- (2) is in charge of sending out senior Department of Medicine letters of recommendation.
- (3) has authority rivaling that of Bud Hefflin.
- (4) has authority surpassing that of Iqbal Paroo.

60. The man on the right, below, is:
- (1) demonstrating an intact area prostoma.
 - (2) displaying his palatine tonsils.
 - (3) doing a study comparing Laurel's voice with ipecac.
 - (4) standing on three stools.

61. This man is:
- (1) performing a secret AOA greeting.
 - (2) taste-testing for phenylketonuria.
 - (3) adjusting himself.
 - (4) comparing his own voice with ipecac.

62. The gentleman looking at this display board is most likely:
- (1) fascinated by the ambitious research project before him.
 - (2) fascinated by renal physiology.
 - (3) fascinated by the premise of the research.
 - (4) fascinated by small shiny spinning objects.

63. Words that this student is likely to type:

- (1) Pathognomonic
- (2) Psychometric
- (3) Schizophreniform
- (4) Sorry

64. Dr. Russin is demonstrating:

- (1) the proper way to enucleate an annoying student's eye sockets.
- (2) the horizontal "peace sign".
- (3) a crude way of estimating intraocular pressure.
- (4) that even attendings watch the Three Stooges.

65. The machine depicted at left would be most efficacious with:

- (1) contrast dye.
- (2) a prolonged spin cycle for those unsightly stains.
- (3) the patient in the supine position.
- (4) the technicians in the supine position.

66. Ilene Zwirn (second from right) is doing which of the following?

- (1) explaining roentgenographic findings to 3rd year students.
- (2) explaining why these finding are sexist.
- (3) explaining why roentgenographic studies in general are sexist.
- (4) explaining why everyone and everything is sexist.

67. The student in this picture is:

- (1) Grant's Atlas
- (2) Gray's Atlas
- (3) Charles Atlas
- (4) Paula Wright

68. These students, shown during their psychiatry rotation, are:

- (1) getting more familiar with their psyches.
- (2) studying the DSM III-R.
- (3) neglecting their duties on the "lock-up" ward.
- (4) cutting one of their patients down from a higher branch.

69. Escalator repairmen are an all-too-familiar sight 'at Hahnemann. What is unusual about this one?

- (1) He remembered to bring his tools.
- (2) There is no cigarette, coffee, or doughnut nearby.
- (3) He is actually trying to fix the thing.
- (4) You can't see his superior gluteal cleft when he is bent over.

70. This H.U. security guard is most likely to ask which of the following people for identification?

- (1) Bonanza's delivery boy.
- (2) Escaped 10th floor patient.
- (3) Anyone larger than himself.
- (4) Iqbal Paroo.

71

72

73

74

DIRECTIONS: For each of the lettered journals below, choose the numbered person on the subsequent page that is MOST likely to read it. Each journal may be used **once, more than once, or not at all.**

Bone

(formerly Metabolic Bone Disease & Related Research)

Volume 9, Number 1, 1988

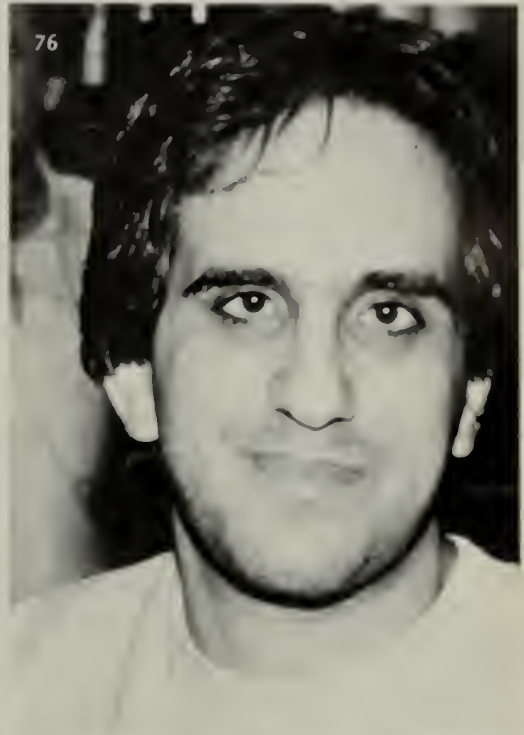

AMERICAN JOURNAL OF MENTAL DEFICIENCY

75

76

77

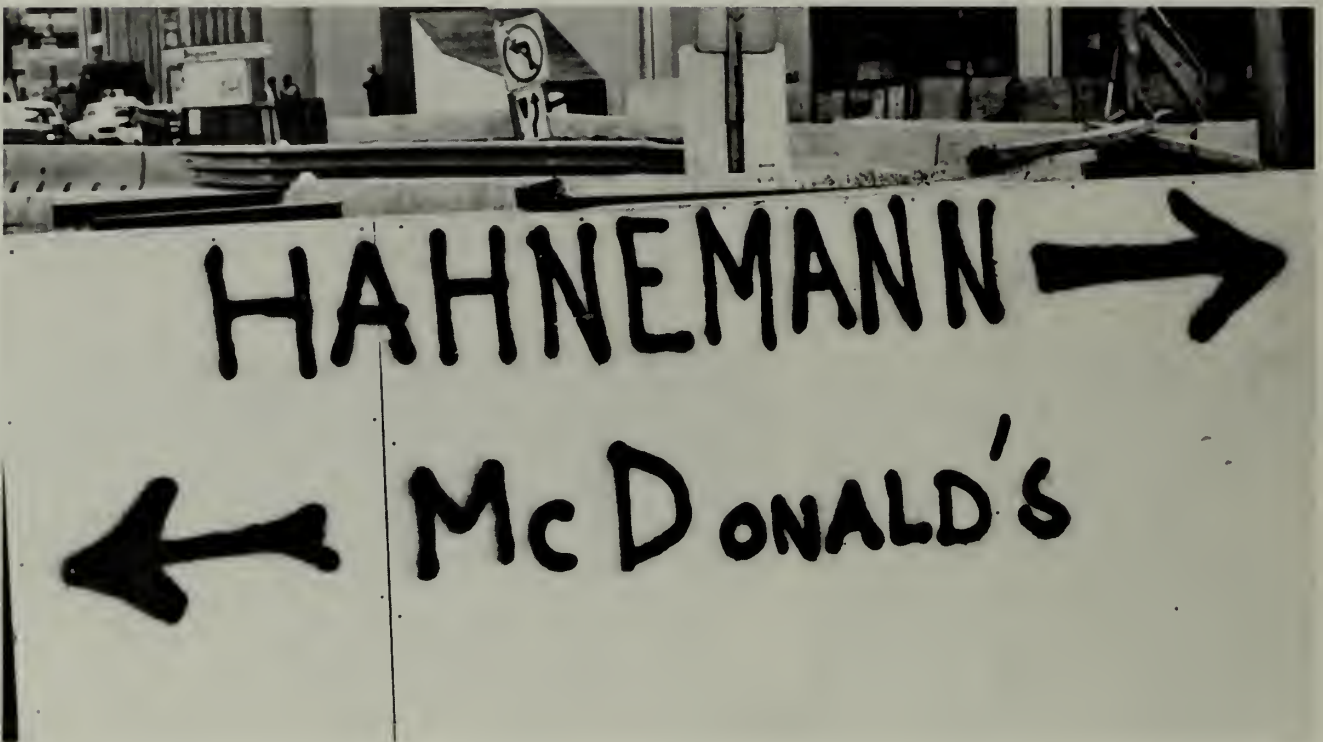

78

79.The patient (center) is:

- (1)Happy to be in the presence of medical excellence.
- (2)Happy about the outcome of her wet mount.
- (3)Stimulated by the ongoing quests of her peers.
- (4)Stimulated by other parts of her peers.

80.A comparison of these two institutions reveals:

- (1)One employs sociopaths who touch your food, while the other employs sociopaths with access to your morning medication.
- (2)Both require a 6th grade education for employment.
- (3)Both are good sources of shigella.
- (4)One serves billions of burgers, while the other serves hundreds of vegetables.

81.This 25 year-old has a recent complaint of lethargy and amnesia. Otoscopic exam resulted in the light passing clear out the other side. A CAT scan of this patient's head might show:

- (1)Hydrocephalus exvacuo.
- (2)Loss of grey-white junction.
- (3)Blood in the subarachnoid space.
- (4)Nothing.

85. This 4th year medical student is:
- (1) Demonstrating dermatomal distributions with his shirt.
 - (2) Catatonic.
 - (3) Still paying his rent with leftover Note Service profits.
 - (4) Going to name his son Joe.

86. What stage would Freud place this man in?
- (1) Oral
 - (2) Anal
 - (3) Genital
 - (4) None; Freud's theory collapses when it comes to future orthopods.

82. Sandra is showing Clay something remarkable:

- (1) Their first case of Wegener's granulomatosis.
- (2) A patient with a pheochromocytoma.
- (3) A code blue in progress.
- (4) Mike Thompson, who hasn't been seen since histology.

83. Which statement(s) concerning these men is/are correct?

- (1) One thinks he has extraordinary medical knowledge and is right.
- (2) One thinks he has extraordinary medical knowledge and is wrong.
- (3) Both wear size 28 student cut Levi's.
- (4) The man on the right is younger.

84. Lack of expression in this case may be secondary to:

- (1) Bilateral Bell's palsy.
- (2) You called him "Xavier".
- (3) The photographer is a nude 22 year-old woman.
- (4) He is post-Coll.

85. This person is most remembered for:

- (1) his accurate and well-organized notes.
- (2) his consistent sartorial prowess.
- (3) his calm demeanor.
- (4) his rise to stardom following the release of his 1964 hit "The House of the Rising Sun."

86. Glen Atlas was the first student to:
- (1) submit his yearbook pictures.
 - (2) interview for surgical categorical positions.
 - (3) score a perfect 800 on Boards.
 - (4) have to travel to Jupiter to get a date.

87. What made Martin McDonough decide to practice law instead of medicine when he graduates?

- (1) The unfavorable fiscal climate of medicine in the 1990's
- (2) The lure of unsettled social and legal issues.
- (3) A feeling of disenchantment with some of his professors.
- (4) The lure of big malpractice bucks once the Class of 1989 hits the floors.

88. Which of the following people is/are likely to appear on a milk carton under the heading "Have You Seen Me Lately?"

A. Nevena Damjanov

B. Mike Thompson

C. Richard Allen

D. Naju Patwa

Commitment

"The faculty at Hahnemann makes a sincere effort to see that each student succeeds."

89. Which one of the depicted individuals below will actually graduate from Hanemann University?

Chaim Arlosoroff, **Hahnemann Medical Student.**

Commitment

"I am encouraged by the enthusiasm of the students at Hahnemann. Their interest renews my commitment to teaching."

90. *Directions:* Try to find a photograph on this page which could even remotely explain the above statement.

Hugh Bennett, M.D. (retired)

1.

2.

3.

4.

5.

Excellence

"I'm loving it. The instructors and the atmosphere at Hahnemann are excellent."

91. Another very silly statement, huh? Choose the photo(s) below which could justify it.

Valerie Alley, Hahnemann Medical Student.

A

B

C

D

E

F

Professional

"My professors at Hahnemann encourage me to get actively involved in dynamic research projects."

92. Which of the dynamic research projects listed is/are clinically relevant?

(1) "New Twists in Tympanic Membrane Visualization", Jarek, M., *Annals of Otorhinolaryngology*, Vol. 14, 1987.

(2) "In Search of a Better Expectorant", Hansch, L., *Allergy and Immunology*, Vol. 32, 1988.

(3) "Constant Studying: Why Bother?", Blaber, R., *Military Medicine*, July 88.

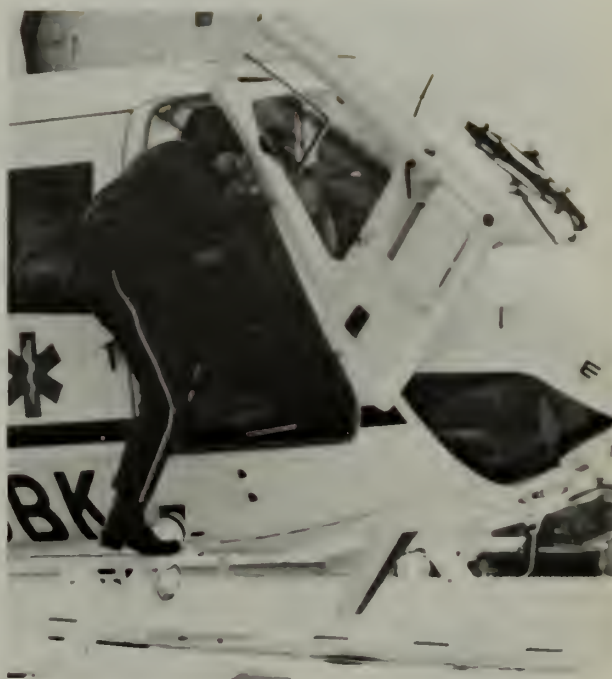

(4) "Fire Brewing and its Effect on Hepatic Function", Warnick, W.C., *Liver*, Vol. 139, 1989.

93. Below are photographs of a typical MedEvac rescue. Using the captions provided, arrange the pictures in the correct sequence.

(1) Pilot tries to figure out what all the dials mean.

(2) Flight nurse hurries on board with lunch for the crew (Bonanza).

(3) Chopper approaches accident scene.

(4) Surgical housestaff rush to trauma room.

H105.143 Rev 2/87

COMMONWEALTH OF PENNSYLVANIA • DEPARTMENT OF HEALTH • VITAL RECORD
CERTIFICATE OF DEATH

TYPE/PRINT
IN
PERMANENT
BLACK INK

NAME OF DECEDENT (First, Middle Last) 1. Fred Q. Public, Esq.				SEX 2. M	SOCIAL SECURITY NUMBER 3. 123 — 45
AGE (Last Birthday) 84	UNDER 1 YEAR Months Days	UNDER 1 DAY Hours Minutes	DATE OF BIRTH (Month Day Year) 9/14/04	BIRTHPLACE (City and State or Foreign Country) Sayre, Pa.	
PLACE OF DEATH (Check only one — see instructions) HOSPITAL Inpatient ☐ ER/Outpatient ☐ DC					

(5) Certificate of Death filled out.

94. Life at Hahnemann is not without its friendships, romances, and bonding. Which of the pairs shown below will continue a long and meaningful relationship after the magical days at Broad and Vine are over?

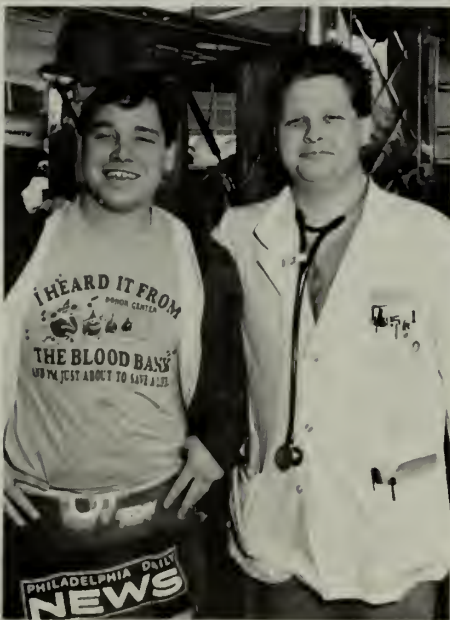

(1) Bryan Weiss and Steve Wahl

(2) Reggie and his tweezers

(3) Roger Spingarn, Steve Berkowitz

(4) Jimmy Dog and unidentified graduate

(5) Chase and her neuroanatomy specimen

(6) Ted K. and Trang

95. What is the most remarkable thing about this particular entrance to Hahnemann?

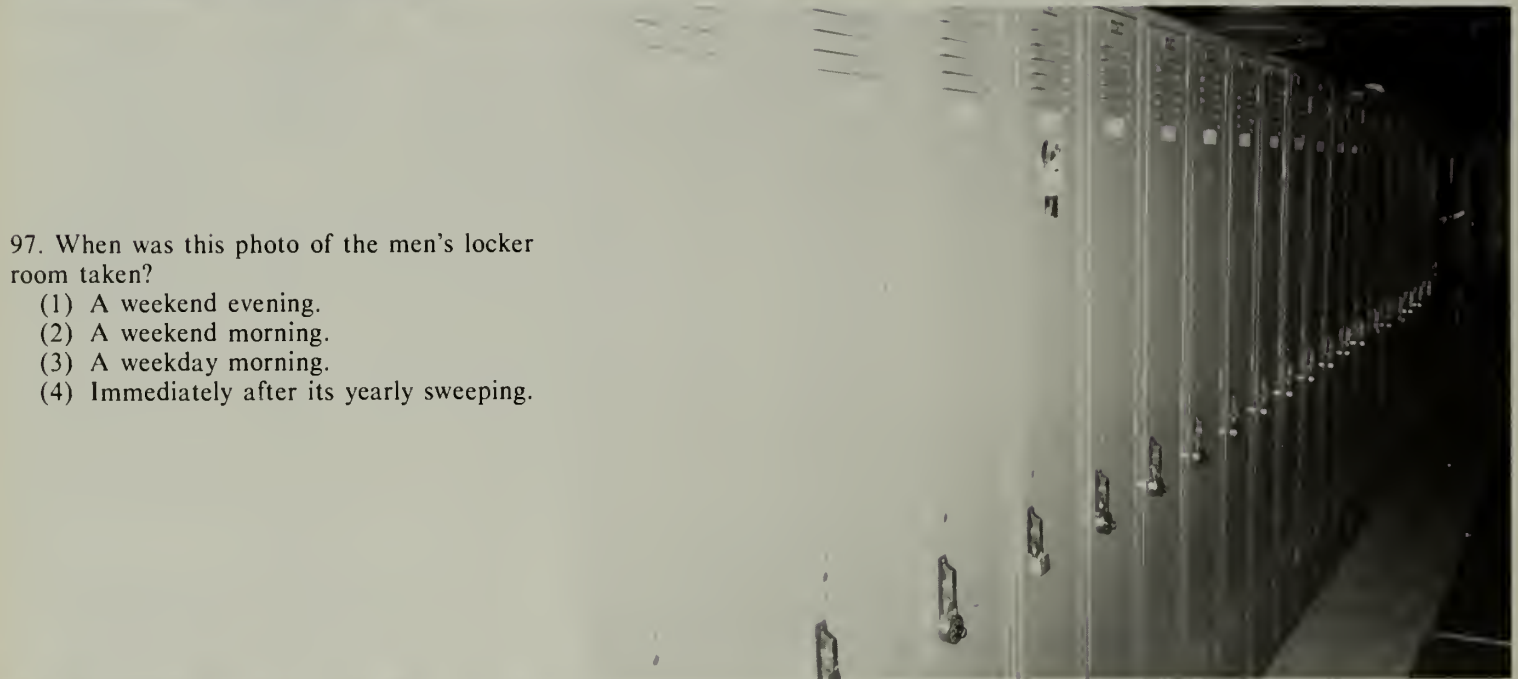

- (1) The beauty of the gothic architecture.
- (2) The stones have been sandblasted to reveal their original luster.
- (3) The detail of the masonry.
- (4) The fact that in our four years here this "entrance" has always been locked.

96. Describe the activity/activities of this MS IV:

- (1) Writing a consult.
- (2) Checking the morning's lab results.
- (3) Reading an attending's orders.
- (4) Copying a nurse's note because he was too lazy to actually examine the patient.

97. When was this photo of the men's locker room taken?

- (1) A weekend evening.
- (2) A weekend morning.
- (3) A weekday morning.
- (4) Immediately after its yearly sweeping.

98. Identify:

- (1) Phalen
- (2) Fallot
- (3) Galen
- (4) Fallon

99. This hardworking lad is most likely to be doing which of the following?

- (1) Typing up an application for residency.
- (2) Typing a Thank You note for some program director.
- (3) Composing a research paper for his academic rotation
- (4) Grossly embellishing his curriculum vitae and personal statement in a desperate last ditch effort to make himself attractive to a residency program in California.

100. Where was this poor tired soul photographed?

- (1) Lehigh Valley Hospital Center after a wild night at Erv's.
- (2) Atop one of those uncomfortable Labor and Delivery bunk beds.
- (3) The 17th Floor Med-Psych ward.
- (4) The Philadelphia City Morgue

101. The professor shown here clutching his chest:

- (1) May be experiencing the pain of myocardial ischemia.
- (2) Is pale and diaphoretic and requires a stat EKG and fluids.
- (3) Probably has a pO_2 of 60.
- (4) Is shocked because the lecture he is giving is actually being attended

102. The person at left is known as:

- (1) Mookie
- (2) The Hammer
- (3) Straw
- (4) Doc

103. What is unusual about this Porsche?

- (1) It has no dents or broken windows despite being parked in Center City
- (2) It is a limited edition of which only 170 were manufactured.
- (3) It has a totally rebuilt VW Rabbit engine.
- (4) Dr. Krevolin usually drives his *Black* Porsche in to town on Tuesdays.

104. This woman is:

- (1) waving hello.
- (2) waving goodbye.
- (3) studying in the only quiet place she could find.
- (4) embarrassed that she was sent out of the room for shooting rubberbands at classmates during Journal Club.

105. These members of the Class of 1989 are:

- (1) watching a hockey game on T.V.
- (2) shouting to a friend at the end of the bar.
- (3) making lewd noises at a young woman by the jukebox.
- (4) pretending they are Philadelphia Inquirer workers.

106. A. George Neubert is smiling because:

- (A) He is about to enjoy the lunch that his lovely wife packed for him.
- (B) This makes the 23rd straight day that he has breached Hahnemann's tight security using Dr. Rattner's misplaced I.D. badge.
- (C) Both
- (D) Neither

107. This is a picture of:

- (A) Brad B. Moore, 20th century medical student.
- (B) Bradius B. Moorius, medieval urologist.
- (C) Both
- (D) Neither

108. Neal's expression can be readily explained by which of the following?

- (1) Thyrotoxicosis.
- (2) Caffeine intoxication.
- (3) He received Honors in a course.
- (4) He received an unexpected digital rectal exam by the poker-faced stranger on his right.

109. This smiling student is:

- (1) Helping to feed Philadelphia's poor.
- (2) Concerned with the delivery of medical care to the homeless.
- (3) Balancing a busy clinical schedule with community activities.
- (4) Swiping a box of Prince Macaroni and Cheese Dinner for himself.

Directions: Answer the following questions based on your memory of the first year of medical school and your knowledge of the Class of 1992.

110. This crowded scene demonstrates:

- (1) An obvious space shortage at Hahnemann that must be remedied.
- (2) A space shortage that is not too uncomfortable
- (3) A space shortage that usually resolves half way through first year as fewer and fewer students attend lecture
- (4) Not a space shortage considering that 33% of these people won't be here next year.

111. Which of the following statements are true?

- (1) Student A got the highest grade on the first anatomy exam.
- (2) Student C has a piece of greater omentum in her hair and she's wiping it on student B.
- (3) Student D is psyched that his cadaver is no one he knows.
- (4) Student E is bummed that the cadaver is no one he knows.

112. The girl at left is demonstrating:

- (1) Normal between-lectures look of desperation.
- (2) Normal intra-lecture look of terminal boredom.
- (3) That despite the disturbance in the back of the room, she will not turn around.
- (4) That she can concentrate on a lecture even though the person next to her won't stop asking her to comment on her new eye shadow.

114. With regard to individual A and B:

- (1) A has athetosis
- (2) B is decorticate.
- (3) B is laughing at A's athetotic gestures.
- (4) A and B are imitating rap singers.

113. The student with the white sweater is:

- (1) Checking answers to a physiology test
- (2) Checking answers to her microbiology test.
- (3) Wondering why the answer to #10 wasn't "E"
- (4) Wondering if it matters that all the circles on her answer form were off by one.

115. Reasons for celebration include
- (1) The end of exam set #1.
 - (2) The end of the neuro-sciences course.
 - (3) Another Dr. Snipes lecture has been added to the schedule.
 - (4) Becoming sophomores when they can take exciting and (heh heh) clinically relevant courses such as pathology.

116. This first year student is talking to a wall in order to:
- (1) figure out why he came to Hahnemann in the first place.
 - (2) get used to what it feels like to deal with certain residents.
 - (3) get used to what it feels like to deal with certain attendings.
 - (4) see what it will feel like to be the medical student he will be ignoring in a few years.

Directions: Base your answers to the following items on your knowledge of the Class of 1991

117. This (un) coordinated fellow is:

- (1) wearing traditional "intern whites".
- (2) demonstrating Trendelenberg gait.
- (3) demonstrating Steppage gait.
- (4) one reason for the downfall of disco.

118. The person on the right is excited because:

- (1) the conversation has turned to a discussion of immunoperoxidase staining techniques.
- (2) another softball game is about to start.
- (3) the person on the left will be pitching.
- (4) he thought he had heard someone mention the words "all-over tan".

119. This scene is best described by which word (s)?

- (1) Interview
- (2) Formal
- (3) Rounds
- (4) Arraignment

120. Being a second-year med student can be tough. Among reasons for this are:

- (1) so much to learn in so short a time.
- (2) physical diagnosis is a slowly-learned skill.
- (3) Boards I anxiety.
- (4) It's tough to get enough people to play a good game of Duck Duck Goose.

121. This Hahnemann student has which abnormality/ abnormalities?

- (1) Testicular feminization.
- (2) Turner's Syndrome (46 XO).
- (3) 21 beta Hydroxylase deficiency.
- (4) This is a normal 46 XX Hahnemann student.

122. The Class of 1991 is not without its pathology. Which of the statement (s) below are accurate assessments of the people shown here?

- (1) Person A was irradiated in utero.
- (2) Person B has the stigmata of Fetal Alcohol Syndrome.
- (3) Person C has appeared in several episodes of "America's Most Wanted".
- (4) A karyotype of Person D would reveal at least one or two missing chromosomes.

123. The Class of 1991 is quite talented. During a recent Talent Night, some of them imitated various celebrities from the music world. Match the celebrity act named below with the correct corresponding photo.

- (1) Sean Penn and Madonna
- (2) Sly and the Family Stone
- (3) The Doobie Brothers
- (4) Heart

124. The person in the center of this picture:

- (1) is thin and has red curly hair.
- (2) wears preppy pastel-colored clothes.
- (3) is a Hahnemann Medical student.
- (4) is actually Jeff Nemhauser's (Class of 1989) evil twin brother from a parallel universe.

125. This student is:

- (1) about to meet his ICM preceptor.
- (2) about to perform his first H & P.
- (3) reviewing the videotape of the morning's Lab Medicine lecture.
- (4) watching the video of Porky's III.

126. Speaking of movies, from which film (s) could this scene have been taken?

- (1) The Graduate.
- (2) Tootsie
- (3) The Midnight Cowboy
- (4) Rain Man.

Directions: Base your answers to the following questions based on your knowledge of the Class of 1990. For each item select

- A if the item is associated with (A) only
- B if the item is associated with (B) only
- C if the item is associated with both (A) and (B)
- D if the item is associated with neither (A) nor (B)

- (A) Dutifully checking the accuracy of ICM notes in Harrison's.
- (B) Seeing if the body of the poster girl is medically possible.
- (C) Both
- (D) Neither

The trenchcoat donned men in this picture are

- (A) malpractice attorneys questioning a patient after a third year student attempted venipuncture from her forehead.
- (B) having a go at law school after their performance on Boards
- (C) Both
- (D) Neither

The person in the background is shuddering because of

- (A) the foreground person's breath.
- (B) the foreground person's Hippo Hurricane Holler.
- (C) Both
- (D) Neither

Directions: Base your answers to the following on your keen insight and familiarity with the Class of 1990.

Doing an anesthesia elective allows the student to:

- (1) witness important pharmacologic and physiologic phenomena.
- (2) wear silly hats.
- (3) practice starting IV's.
- (4) secretly experience the alluring effects of IM demerol.

The junior year is so easy because:

- (1) your responsibilities are limited.
- (2) on call is a joke.
- (3) end-of-rotation exams are always fair.
- (4) you don't ever have to lift a finger.

This quintet shows:

- (1) how even med students can have fun.
- (2) a sadistic group of surgical residents awakening a patient at 5:30 AM.
- (3) rejects from the Mummer's Parade.
- (4) what third year students look like through eyes of their attendings.

Accurate term(s) for this picture:

- (A) Conference call.
- (B) Serial rectal exams.
- (C) Both
- (D) Neither

These women are:

- (1) discussing ways to ask sexual histories.
- (2) sharing clipboard maintenance secrets.
- (3) convinced that they will need that pocket eye chart.
- (4) heading for the beach at Monmouth.

Which of the following are true?

- (1) The guy on the right has one hand full.
- (2) Guy A tries to score in a \$25 rental tux.
- (3) Guy B is pointing to someone with flatulence.
- (4) Gal C once confused surgilube for styling gel.

Directions: Match the below photographs with the appropriate lettered statement.

- (A) Overjoyed with surgery
- (B) Surgical pyramid.
- (C) Someone who sings even worse than Chong.

Yusake:

- (1) eats like all the other doctors at Hahnemann's cafeteria.
- (2) doesn't believe in forks, spoons, or chopsticks.
- (3) thinks that eating with a spatula is the panacea for reflux.
- (4) demonstrates his technique at Le Bec Fin.

The man on the crutches:

- (1) has a comminuted fracture of left tibia.
- (2) has had an Achilles tendon repair.
- (3) has had ankle fusion.
- (4) will do just about anything for an ortho spot.

These fun guys are most likely to be found at:

- (1) The Irish Pub.
- (2) Revival.
- (3) Doc Watson's.
- (4) the basement vendeteria.

- (A) The woman has studying on her mind.
- (B) The man (note right hand) has other things on his mind.
- (C) Both
- (D) Neither

The baby in this picture is

- (A) scared by the brightness of the flashbulb.
- (B) terrified by the lack of brightness of her caretakers.
- (C) Both
- (D) Neither

Why are these people's heads so close together?

- (A) They like each other.
- (B) The woman's hair has its own gravitational field.
- (C) Both
- (D) Neither

The women above are shown:

- (1) cursing an innocent yearbook photographer.
- (2) protesting the use of laboratory rats for experimentation.
- (3) after simultaneous psychotic breaks at Byberry.
- (4) during liver rounds at Sayre.

Likely excerpts from his clinical evaluations might be:

- (1) "Professional in appearance"
- (2) "Friendly and interested"
- (3) "An asset to the service"
- (4) "Not as dumb as he looks"

his trio:

- (1) Were accused of making copies of the 2nd year ICM exam.
- (2) is on surgical rounds at Crozer Chester.
- (3) were refused admittance into Hahnemann without their ID's.
- (4) is about to be escorted to the psych E.R. by security.

The student (above left) is thinking:

- (1) "When will this guy stop trying to recruit me for his residency program?"
- (2) "Promises, promises ... yeah we have night float and a stick team, but where can I park my car?"
- (3) "What really is this man's job?"
- (4) "Is this Allan B. or Alan J.?"

The woman above (center) is:

- (1) A gynecologic teaching assistant.
- (2) Instructing these students in breast examination technique.
- (3) Listed in Gray's Anatomy under anatomical variants.
- (4) Never going to drown.

Below are but a few of the Class of 1990's Bevy o' Beauties. Which of the full-blooded American males at the bottom of the page is MOST likely to become their love slave?

A

B

C

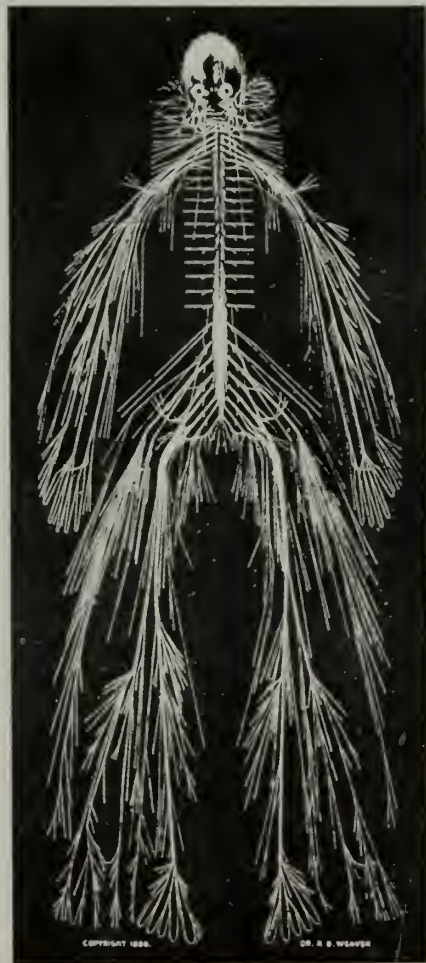

D

Being a third year is great because:

- (1) No basic science
- (2) Fewer boring lectures
- (3) No Note Service
- (4) Soon you'll be fourth years and worrying about choosing a specialty, picking the right rotations, Boards II, applications, fabricating mistruths and exaggerations to bolster your CV's, arranging interviews, fabricating personalities to use on interviews, writing Thank You notes to program directors you'd much rather see dead, the Match, the increasingly bleak financial status of medicine, the fact that your smart friends are graduating from law school next month, ...

FACULTY AND ADMINISTRATION

Iqbal F. Paroo, President and Chief Executive Officer

Alan J. Schwartz, M.D., Associate Dean for Academic Affairs

Harry Wollman, M.D., Vice President for Academic Affairs, Dean, School of Medicine

Bob Walker
University Dean of Students

Arnold T. Berman, M.D.
Assoc. Dean for Graduate Medical Education

Susan Rattner, M.D.
Assistant Dean for Student Affairs

Stephen Risen, M.D.
Assistant Dean for Promotions

Rachelle Browndorf, M.B.A.
Associate Dean for Resource Management

Burton Landau, Ph.D.
Assistant Dean for Curriculum

DEPARTMENT OF ANATOMY

Dr. P.S. Amenta, *Chairman*

Dr. R.P. Meyer

Dr. M. Kennedy

Dr. D. DePace

Dr. A. Haroian

Dr. J. Rubertone (left)

The following are true statements **EXCEPT**:

- (A) It took 6 months for the smell of formaldehyde to wear off.
- (B) We quickly found that the prosection table was the place to be.
- (C) Dr. Amenta's Histology provided a unique description of the female reproductive organs.
- (D) We still don't understand the pterygoid fossa.
- (E) We still remember the cerebellar pathways.

DEPARTMENT OF BIOCHEMISTRY

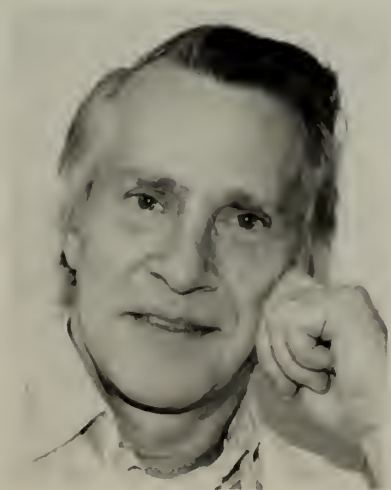

Dr. T. Devlin, *Chairman*

Dr. J. Baggot

Dr. C. Angstadt

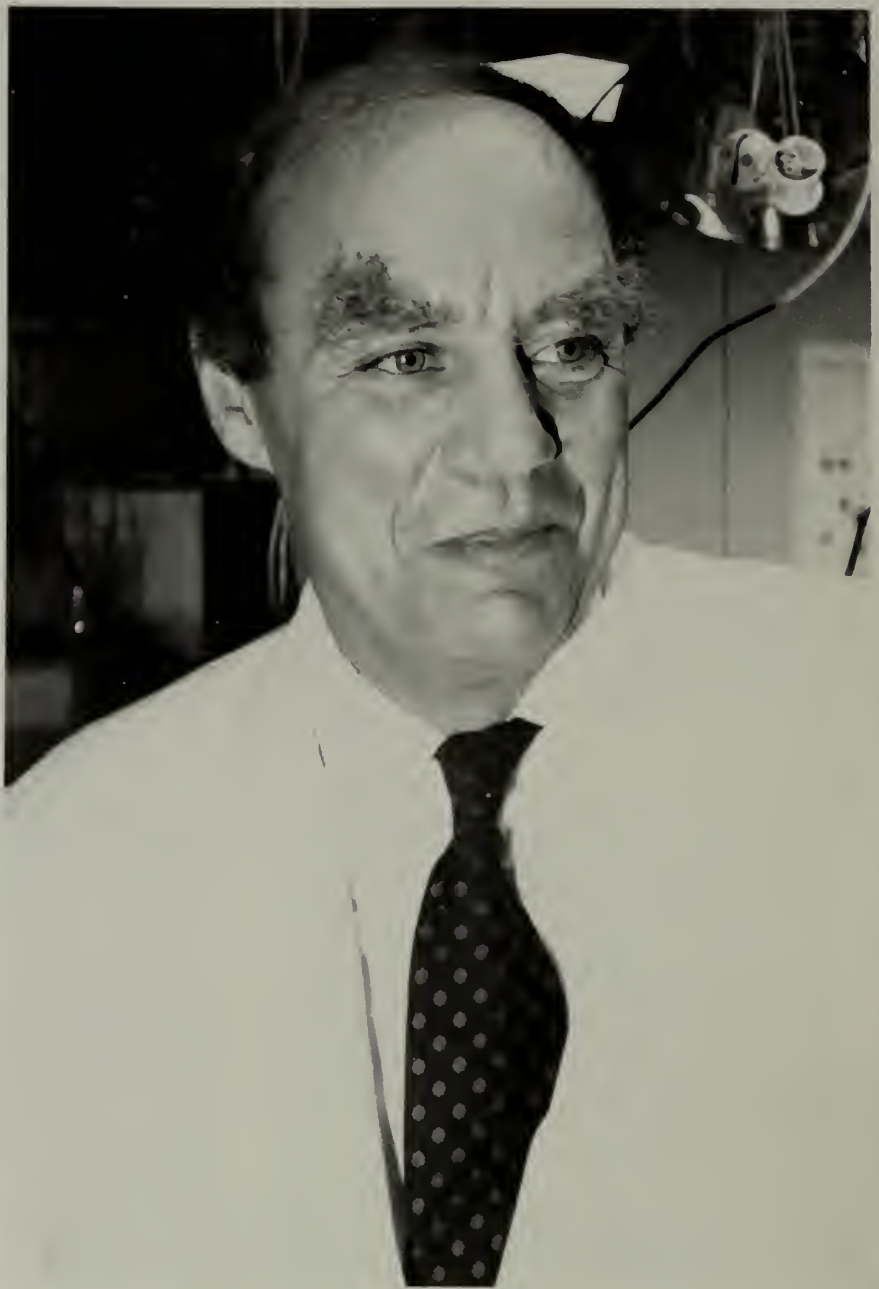

Dr. Conover

DEPARTMENT OF PHYSIOLOGY

Dr. C. Snipes

Dr. R. Alteveer

Dr. J. Torres

Dr. N. Kraft-Schreyer

Dr. E. Angelakos

DEPARTMENT OF MICROBIOLOGY

Dr. R. Crowell, Chairman

Which of the following things made our microbiology course so much fun?

- (1) Memorizing scores of facts concerning microbial ultrastructure.
- (2) Learning all about different culture media.
- (3) Learning about the reduvid bug.
- (4) Doing rectal cultures on ourselves.

From L to R: Dr. Cohen, M. Schwartz, M. Bramucci, B. Ngwenya, A. Vaidya, C. Long, W. Weidanz, B. Landau, E. Blankenhorn, I. Hammel, R. Crowell, N. Yamamoto

DEPARTMENT OF PHARMACOLOGY

Dr. J. DiPalma

Dr. W. Chernick, *Chairman*

Dr. B. Calesnick

Dr. G. DiGregorio

Dr. A. Ferko

Dr. E. Barbieri

What has been the most difficult aspect of pharmacology?

- (1) Understanding the concepts of half life, peak and trough, and loading dose.
- (2) The physiologic basis of antiarrhythmic drugs.
- (3) Remembering various chemotherapeutic regimens.
- (4) Learning drug trade names after having been taught only the generic names.

DEPARTMENT OF PATHOLOGY

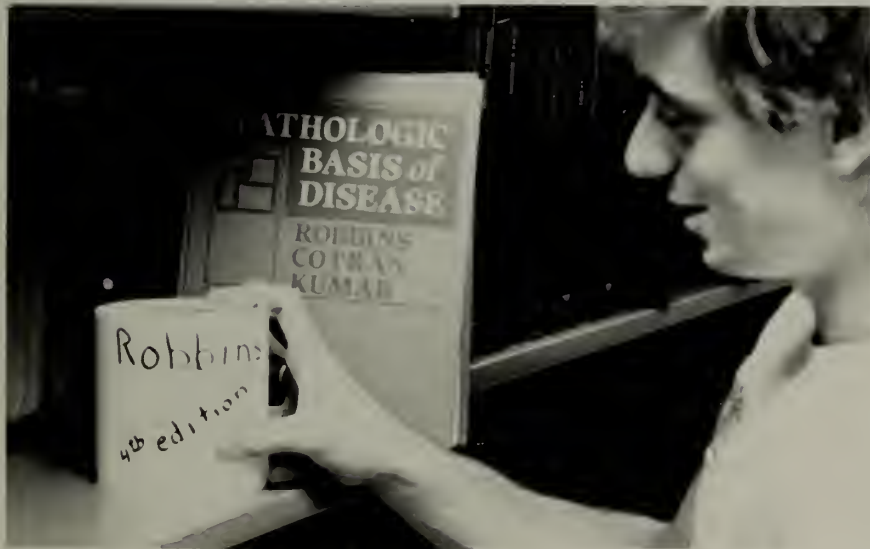

Dr. P. Amenta

Dr. S. Katz

Dr. S. Finklestein

What are possible explanations for the behavior of the above two medical students?

- (1) They are cramming for the pathology section of Boards part I.
- (2) They are uninspired by the excruciating detail and fuzzy photographs of their primary pathology textbooks.
- (3) They are anxious to begin what will surely be a fascinating course in Laboratory Medicine.
- (4) They are uninspired by the poem about Legionnaire's Disease they heard that morning.

DEPARTMENT OF MEDICINE

Dr. W. Frankl, *Chairman*

Dr. A.B. Schwartz

Dr. W. Oaks

Dr. H. Clearfield

Dr. L. Krevolin

Dr. V. Dinoso

GENERAL PURPOSE

ANSWER SHEET

form no. 4521

IMPORTANT DIRECTIONS FOR MARKING ANSWERS

- Use #2 pencil only.
- Do NOT use ink or ballpoint pens.
- Make heavy black marks that fill the circle completely.
- Erase cleanly any answer you wish to change.
- Make no stray marks on the answer sheet.

THE NATIONAL BOARD OF MEDIC EXAMINERS

Questions:

1. WHY A NATIONAL BOARDS MOTIF?
2. SHOULD WE BE LAUGHING?
3. WHO WAS RESPONSIBLE FOR ALL OF THIS ANYWAY?
4. CAN WE SUE THEM?

Answers:

This year's Medic has been modeled after the dreaded National Boards as you have undoubtedly noticed. A chance to parody one of Medical school's low points seemed too good to pass up. When have we ever gotten the opportunity to write our own questions during the four long years of having others do it for us? Here we can ask the questions that really matter: the ones about ourselves

Some of the items in this "examination" might border on the limits of good taste. Our intention was to entertain, not insult. If we offend, we apologize. This theme lends itself well to the good-natured teasing throughout the book, and the text and photos should only be looked at with an open and understanding mind. I do not doubt that this book will mean different things to different people.

The parties responsible for Medic 1989 have worked steadily for about ten months. Their diligence, energy, and creativity began sometime while we were writing personal statements, lasted through applications, Boards II, and interviews, spanned subinternships, and continued until shortly after Match Day. For their help I sincerely thank them. Special accolades are bestowed upon Griff Blackmon and Dean Gobo, without whom this yearbook could not have been possible. Others to whom I am grateful are shown below.

The answer to item #4 above is "no", despite rumors to the contrary (see page 256).

As Editor, it is my duty and pleasure to wish all of you the very best of luck in the future. We are leaving here with a lot more than an imposing amount of debt. We are leaving with the privilege to put the things we have learned over the past four years to use. I am proud to have had you as my classmates and hope that our paths may cross again.

I only wish that all tests could be this easy.

Evan Krakovitz, Editor-in-Chief

Griffith Blackmon, Business Manager

Physician's Prayer
by Maimonides

"O God, Thou hast formed the body of man with infinite goodness; Thou hast united in him innumerable forces incessantly at work like so many instruments, so as to preserve in its entirety this beautiful house containing his immortal soul; and these forces act with all the order, concord and harmony imaginable. But weakness or violent passion should disturb this harmony, these forces would act with against one another and the body return to the dust whence it came. Thou sendest them to man Thy messengers, the diseases which announce the approach of danger, and bid him prepare to overcome them. The Eternal Providence has appointed me to watch o'er the life and health of Thy creatures. May the love of my art actuate me at all times; may neither avarice, nor miserliness, nor the thirst for glory or a great reputation engage my mind; for enemies of truth and philanthropy, they could easily deceive me and make me forgetful of my lofty aim of doing good to Thy children. Endow me with strength of heart and mind so that both may be always ready to serve the rich and the poor, the good and the wicked, friend and enemy, and that I may never see in the patient anything else but a fellow creature in pain.

"If physicians more learned than I wish to guide and counsel me, inspire me with confidence in, obedience toward the recognition of them, for the study of science is great. It is not given to one alone to see all that others see. May I be moderate in everything except in the knowledge of this science: as far as it is concerned may I be insatiable; grant me strength and opportunity to always extend its domain; for knowledge is immense and the spirit of man can also extend infinitely to daily enrich itself with new acquirements. To-day he can discover his errors of yesterday and tomorrow he may obtain new light on what he thinks himself sure of to-day. "O God, Thou hast appointed me to watch o'er the life and death of Thy creatures; here am I, ready for my vocation."

THANKS ...

To my wife, Fran
For your undying patience, devotion, and love,
For working so hard to support us,
For your understanding and encouragement every day.

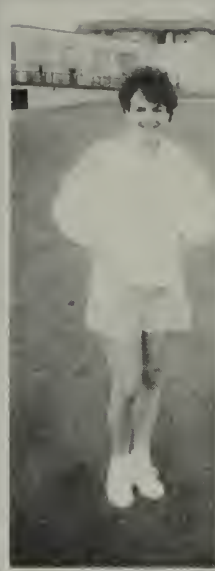

To my parents and all my family
For lifting my spirits when I am down,
For your words of encouragement when the hills seem steep,
For the opportunities that allowed me to reach my potential,
And for your ever-present love and support.

To our Lord and God
Thanks for thy many blessings
By thy grace, help us to serve your people.

Satish Reddy, M.D.

The Johns Hopkins University

Know then thyself, presume not God to scan;
The proper study of Mankind is Man.
Plac'd on this isthmus of a middle state,
A Being darkly wise, and rudely great:
With too much knowledge for the Sceptic side,
With too much weakness for the Stoic's pride,
He hangs between; in doubt to act, or rest;
In doubt to deem himself a God or Beast;
In doubt his Mind or Body to prefer;
Born but to die, and reas'ning but to err;
Alike in ignorance, his reason such,
Whether he thinks too little, or too much:
Chaos of Thought and Passion, all confus'd;
Still by himself abus'd, or disabus'd;
Created half to rise, and half to fall;
Great lord of all things, yet prey to all;
Sole judge of Truth, in endless Error hurl'd:
The glory, jest, and riddle of the world!

Alexander Pope
Essay on Man

FOOTPRINTS EXCERPT

"God, you said that once I decided to follow you, you would walk with me all the way, but I noticed that during the most troublesome time in my life, there is only one set of footprints, I don't understand why in times when I needed you most, you would leave me." God replied, "My precious, precious child, I love you and I would never leave you during your times of trials and suffering."

When you see only one set of footprints, it was then that I carried you."

Cathryn G. Stamatatos, Ph.D,
M.D.

Smith College
Boston University

Neal Alan Stansbury, M.D.
University Of California at Irvine

The Almighty Lecturer, by displaying the principles of science in the structure of the universe, has invited man to study and to imitation. It is as if He had said to the inhabitants of this globe that we call ours, "I have made an earth for man to dwell upon, and I have rendered the starry heavens visible, to teach him science and the arts. He can now provide for his own comfort, and learn from my munificence to all to be kind to each other."

Thomas Paine

Susan St.Clair, M.D.
Bucknell University

"The world we now and here know- various, mutable, a perpetual flux of states and relations of things, or an ever-shifting phantasmagoria of thoughts and sensations, each lapsing into nonentity in the very moment of its birth- seems to the otherworldly mind to have no substance in it; the objects of sense and even of empirical scientific knowledge are unstable, contingent, forever breaking down logically into mere relations to other things which when scrutinized prove equally relative and elusive."

THE MATCH

MARCH 22, 1989

Please Go On To Next Page

Sit back and enjoy the velvet tones of Alan J. Schwartz as he croons:

- A. "Close to You"
- B. "Moon River"
- C. "That's Amore"
- D. "Beer Barrel Polka"
- E. "Wild Thing"

Which of the following statements is referred to as “*THE HAHNEMANN CREDO*”?:

A.

B.

C. Both
D. Neither

- In the following photomicrograph:
- A. Chong is playing a video game
 - B. Don is wearing a video game
 - C. Both
 - D. Neither

- The scene depicted below most likely represents:
- A. Roger telling about the "one that got away."
 - B. Roger discussing matters of MSI importance
 - C. Roger talking about his "5 year plan"
 - D. Roger confessing that he is a size queen

ADVERTISERS AND PATRONS

We're moving right along! From the horse-drawn ambulance of the 1890s to the 1912 Packard . . . to the University MedEvac helicopter . . . we have been bringing our patients in style . . . to the best possible care available. In the 1890s it was antiseptic surgery, tender care and concern . . . today it is MRI and transplants and monoclonal antibodies . . . in 2000 what will it be?

***You* will provide the answers. You have been educated to move medicine into the 21st century, to develop the techniques and the materials for even better health and to provide them always with the same care and concern.**

**Take with you our admiration
And our best wishes as you advance in your profession.**

**THE BOARD OF TRUSTEES
PRESIDENT & ADMINISTRATION
OF HAHNEMANN UNIVERSITY**

This sculpture, "The Bearers of Light," represents a three-dimensional view of the optic system - retina, optic nerves, optic chiasma and the optic tracts. It is a tool for the student of anatomy - one that brings enlightenment to his education. This tool is part of Hahnemann's vision of education, through which you have learned the art of healing.

Congratulations and best wishes,
Class of 1989

The School of Medicine Administration

Education is the communication of ideas...a never-ending proposition.

Congratulations to the Class of 1989

BEST WISHES TO THE CLASS OF 1989

From

Oaks Miller Cohen Associates

To the Hahnemann University School of Medicine
Graduates, 1989:

"Cherish your doubts, for doubt is the handmaiden of truth. Doubt is the key to the door of knowledge; it is the servant of discovery. A belief which may not be questioned binds us to error, for there is incompleteness and imperfection in every belief.

Doubt is the touchstone of truth; it is an acid which eats away the false.

Let none fear for the truth, the doubt may consume it; for doubt is a testing of belief.

For truth, if it be truth, arises from each testing stronger, more secure. Those who would silence doubt are filled with fear; the house of their spirit is built on shifting sands.

But they that fear not doubt, and know its use, are founded on a rock.

They shall walk in the light of growing knowledge; the work of their hand shall endure.

Therefore, let us not fear doubt, but let us rejoice in its help: It is to the wise as a staff to the blind; doubt is the handmaiden of truth."

William S. Frankl, M.D.
Chairman, Department of Medicine and
Director, Likoff Cardiovascular Institute

"May I never forget that the patient is a fellow human creature in pain. May I never consider the patient merely a vessel of disease."

Train To Win.

Easton Hospital Residency Programs

University Affiliation.

As an affiliate of Hahnemann University School of Medicine, Easton Hospital offers 3rd-year surgical rotations; 4th-year internal medicine, surgical and emergency medicine electives; and medical and surgical residencies.

High Passing Rates.

During the past 5 years, 75% of our medical residents have passed the American Boards of Internal Medicine. In addition, those of our graduates who wish to continue their training are well prepared for strong fellowship programs or subspecialty training.

Hands-On Experience.

Our dynamic combination of "learning by doing" plus excellent supervision brings results: our graduating surgical residents were recently rated better than the 90th percentile in the number of complex surgical procedures performed.

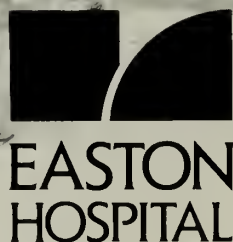

Patient Diversity.

The wide variety of clinical pathology diagnosed and treated at Easton Hospital's state-of-the-art facility is comparable to that experienced at university centers. Most of our patients are diagnosed and treated *first* at Easton Hospital, not after evaluation elsewhere.

Excellent Practice Opportunities.

Young physicians seeking to start a practice find the metropolitan area surrounding Easton a "land of opportunity." The Lehigh Valley offers an attractive environment, a rapidly growing professional population, low unemployment and proximity to NYC and Philadelphia -- ideal for establishing successful medical practices.

Let Easton Hospital show you how our program can help prepare you for a successful and fulfilling career. Call the Director of the Department of Medicine, Dr. Kenneth Wildrick (215-250-4013) or the Director of the Department of Surgery, Dr. George Watkins (215-250-4014).

HealthEast and Hahnemann University

Dedicated to the education of health professionals.

The HealthEast Teaching Hospitals are proud to be affiliated with Hahnemann University in the education of our future health care providers.

Our first year of academic cooperation was successful and we look forward to working with the University on other joint ventures and programs.

At HealthEast, we're dedicated to educating health professionals and to bringing the latest medical advancements to our region. Together with Hahnemann, we look forward to a future of academic and medical excellence.

**Hahnemann University
Hospital**

Atlantic City Division
1925 Pacific Avenue, Atlantic City, 609-344-4081

Atlantic City Medical Center is a two division, 615 bed hospital system located at the beautiful southern New Jersey shore. Our medical staff and employees are devoted to quality care individualized to meet the unique needs of every patient. We take pride in our services, state-of-the-art equipment, and in the vital role we play within the community and surrounding area.

Our medical staff is highly skilled in the practice of 13 medical specialties and 15 subspecialties. Our facilities house the regional Neo-natal Intensive Care Unit, the Ruth Newman Shapiro Regional Cancer Center, Cardiac Catheterization Laboratory and two of the busiest Emergency Departments in the nation.

Atlantic City Medical Center values its affiliation with Hahnemann University. Many of our medical staff are Hahnemann graduates, and we take pride in our close ties with the many fine students who have participated in our training programs.

Help Yourself To Excellence.

St. Francis Health System is a growing, integrated regional health care provider. The flagship of the system is St. Francis Medical Center. The 750-bed regional referral teaching hospital offers medicine, surgery, critical care transport, physical rehabilitation, psychiatry and chemical dependency treatment. Specialized technologies include: laser surgery, lithotripsy, hyperbaric medicine and interhospital critical care cardiac transport.

Specialized Centers of Excellence are:

- The Pittsburgh Laser Center
- The Center for Cardiac Care
- The Center for Critical Care
- The Center for Physical Rehabilitation
- The Center for Psychiatric Medicine
- The Center for Chemical Dependency Treatment

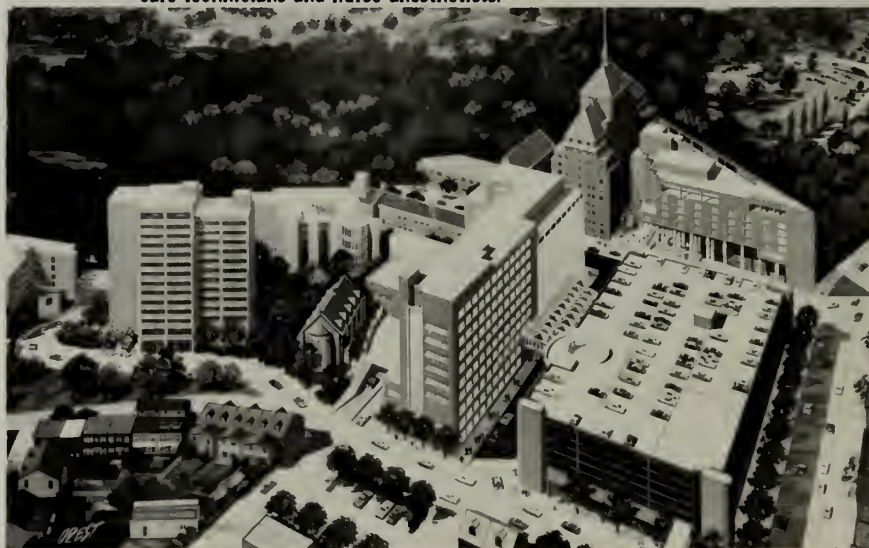

St. Francis Medical Center-North is a free-standing emergency and diagnostic center providing efficient, convenient, high-technology health care for residents of southern Butler and northern Allegheny County. St. Francis Nursing Center-East is an off-site 150-bed skilled nursing and intermediate care facility. St. Francis Health and Fitness Center is a medically-oriented fitness, medical and diagnostic center, located in downtown Pittsburgh.

Eight residency programs are available in:

- Transitional Program
- Internal Medicine
- Diagnostic Radiology
- Psychiatry
- Oral and Maxillofacial Surgery
- Ophthalmology

- Physical Medicine and Rehabilitation
- A Fellowship in Cardiology

St. Francis also conducts accredited schools for registered nurses, licensed practical nurses, respiratory care technicians and nurse anesthetists.
